)COMPANY PROFLE

GOPIQUE (PTY) LTD
Civil Engineering Excellence

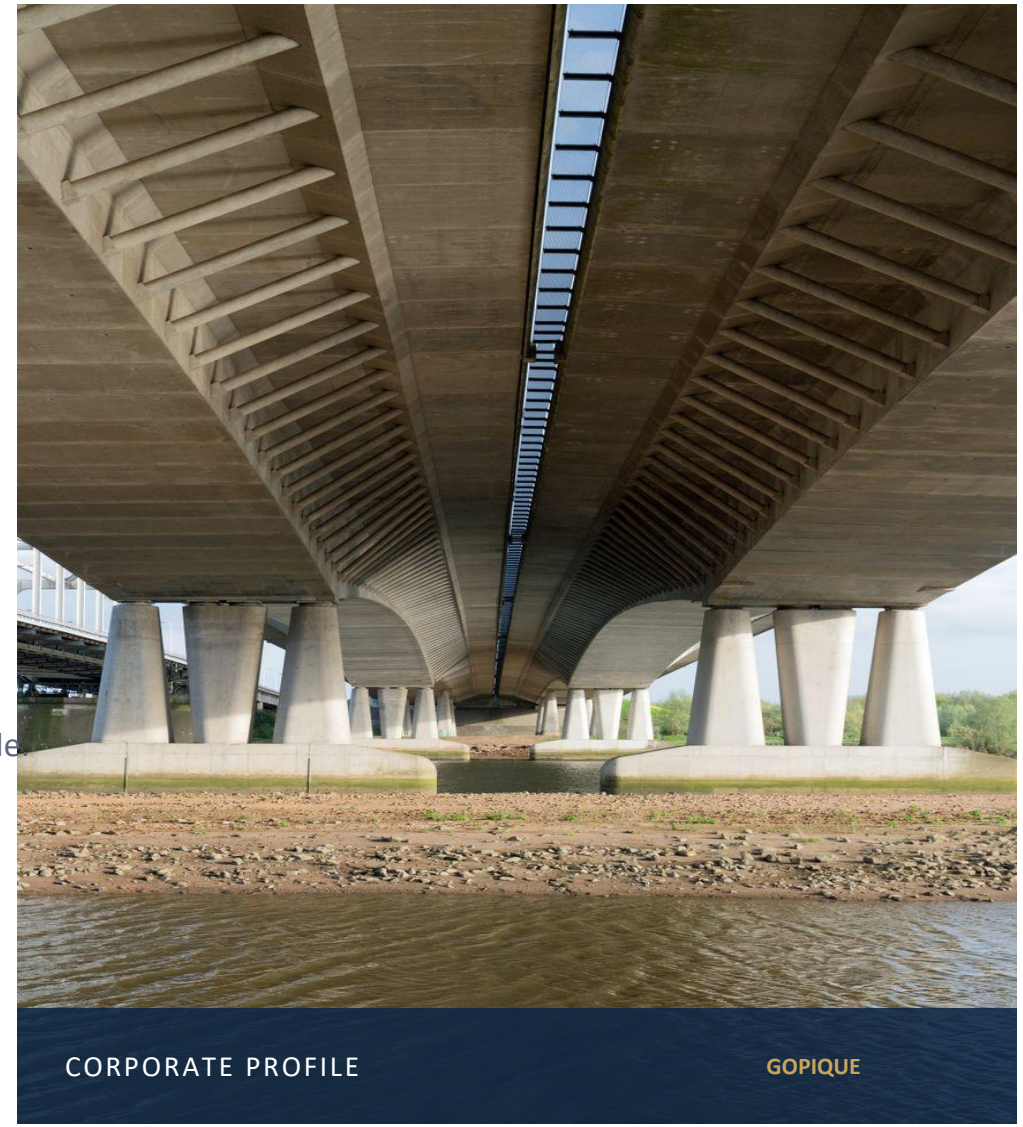

ESTABLISHED 2013

- Leading South African Independent Civil & Building Engineering Contractor.

QUALITY DRIVEN ENGINEERING COMPANY

SANAS BBBEE LEVEL 1

- Delivering robust, state-of-the-art infrastructure across South Africa for over a decade.

EXECUTIVE SUMMARY

Who We Are

Gopique Projects is a prominent, independent multi-disciplinary civil and building engineering South African company. Since our inception in 2013, we have successfully executed multiple infrastructure projects, establishing ourselves as a reliable partner in public and private sector development.

ESTABLISHED 2013

MULTI-DISCIPLINARY

CAPABILITIES

Multidisciplinary Capabilities: Roads, bridges, water & sanitation, dams, storm damages, and buildings.

PRESENCE

Geographic Footprint: Active in various Provinces, delivering high-quality engineering works across diverse communities.

OUR VISION

Our Vision: Delivering high-quality, sustainable infrastructure with an unwavering focus on safety, innovative engineering, and direct community upliftment.

GOPIQUE (PTY) LTD

Corporate Directory & Locations

Operating from our Durban head office, Gopique has established a strategic national footprint to support local municipalities, provincial departments, and private clients.

Central Supplier Database Profile

CORE FOCUS AREAS

Specialized Engineering Capabilities

Our technical expertise covers the entire lifecycle of civil engineering and construction projects, with specialized delivery across six core focus areas.

01

Roads & Earthworks

Construction, upgrade, and rehabilitation of urban, rural, and provincial roads.

02

Water & Sanitation

Supplying critical sanitation and water infrastructure to hospitals, businesses, schools and communities.

03

Concrete Structures

Reservoirs, building foundations, retaining walls, chambers, and structural bridge engineering.

04

Township Infrastructure

Specialized township roads, storm drainage, and skills transfer to emerging local contractors.

05

Pipeline Construction

Water, wastewater, storm water, and fire protection pipelines utilizing steel, PVC, HDPE, and ductile iron.

06

Human Settlements

Residential housing development with direct integration of local economic empowerment initiatives.

OUR OPERATIONS

Main Areas of Activity

Construction & Civil Engineering Expertise

With state-of-the-art plant equipment and a highly skilled workforce, our operations are optimized to handle complex, demanding contracts.

CIVIL WORKS

INFRASTRUCTURE

ASPHALT PAVING

High-quality asphalt surfacing, milling, recycling, and resurfacing of urban and major arterial roads.

CIVIL EARTHWORKS

Mass earthmoving, precise land rehabilitation, and deep specialized excavations for foundational works.

PIPELINE INSTALLATION

Laying high-performance pipelines from 22mm to 1500mm using robust PVC, HDPE, and steel materials.

STRUCTURAL CONCRETE

Specialized structural building foundations, heavy-duty engineering retaining walls, and water reservoirs.

DISASTER RECOVERY

Efficient remediation of storm damages, specialized bridge repairs, and emergency road rehabilitation.

SUPERVISORY TEAM

FLEET

Major Flagship Projects

Key Infrastructure Deliverables (2018 – 2026) • Gopique has successfully delivered multi-million Rand infrastructure developments across KwaZulu-Natal and other provinces, totaling over R380 Million in major works.

Tshelimnyama Bridge

R22.8 MILLION

ETHEKWINI MUNICIPALITY (2025)

Complete structural concrete bridge construction and associated approach roads.

M4 Road Flood Damage Repair

R46.1 MILLION

ETHEKWINI MUNICIPALITY (2024)

Emergency earthworks, drainage restoration, and extensive asphalt paving repairs.

Mbozamo Housing Project

R19.7 MILLION

KWADUKUZA MUNICIPALITY (2015)

Residential development in partnership with the Department of Human Settlements.

Bulk Water & Sewer Upgrade

R24.3 MILLION

ILEMBE DISTRICT MUNICIPALITY (2023)

Replacement & upgrade to bulk water & sewer facilities, including bulk pipeline installation.

Izinga New Roads & Services

R18.4 MILLION

TONGAAT HULETT (2022)

Complete civil infrastructure development and road services for a premium residential estate.

Various Asphalt Paving

R182.0 MILLION

MULTIPLE MUNICIPALITIES (2018 – 2026)

Multiple critical urban road upgrades, rehabilitation, and maintenance programs.

GOPIQUE (PTY) LTD

Other Key Projects

We deliver the same standard of execution across all projects, including key specialized transport and private sector works.

Concrete Barriers & Retaining Structures
Ethekwini Municipality (2021) • Heavy structural civil
R19.6 MILLION

New Warehouse Building
King Shaka International Airport (2022) • General building (4GB)
R14.3 MILLION

M4 Zimbali Bridge Repair
SANRAL / Empa-Raubex (2023) • Emergency structural
R16.6 MILLION

Greyville Racecourse Upgrade
Golden Horse (2020) • Civil & specialized paving
R3.2 MILLION

Airport Runway Repairs
ACSA (2019) • Runway rehabilitation & milling
R5.9 MILLION

QUALITY & EXECUTION

Delivering premium infrastructure engineering with verified CIDB class-leading capability.

GOPIQUE (PTY) LTD

Plant & Heavy Machinery Fleet

To guarantee project timeliness and maintain independence, Gopique operates and maintains a modern, comprehensive fleet of earthmoving and road construction machinery.

OPERATIONAL INDEPENDENCE

Our owned fleet ensures we deploy equipment rapidly and maintain maximum uptin across remote project sites.

LOGISTICS & PLANT

OUR MACHINERY

ROAD CONSTRUCTION

- 2x Milling Machines
- 2x Asphalt Pavers
- 2x Tandem, 3x PTR & 1x Recycler

EARTHMOVING & LOADING

- 4x Tractor-Loader-Backhoes
- 4x Excavators
- 2x Bobcats / Skid-steer

HAULAGE & LOGISTICS

- 8x Tipper Trucks
- 6x Dropside Trucks
- Rapid site logistics dispatch

UTILITIES & SUPPORT

- 3x Water Carts (Compaction)
- 23x LDVs & Support Cars
- Piling Rigs

Our Team & Community Empowerment

HUMAN CAPITAL & LOCAL ECONOMIC UPLIFTMENT

Our success is driven by a highly qualified team committed to rigorous safety protocols, construction quality, and community-centric growth.

Our Personnel

STAFF

A dedicated permanent workforce of over 45 full-time professionals, including civil engineers, project managers, and machine operators.

Community Empowerment

EMPOWER

We actively supplement our labor force by hiring and training local unskilled and skilled labor within our active project zones.

Local Skills Transfer

MENTORSHIP

We prioritize mentoring emerging local subcontractors, fostering sustainable entrepreneurship and building long-term local capacity.

Safety Culture

COMPLIANCE

Standard compliance with OHSA regulations ensures that our construction sites consistently achieve zero-incident records.

Why Choose Gopique?

Your Trusted Engineering Partner

Over our 13-year journey, Gopique has combined technical capability, high compliance, and a proven track record to deliver exceptional engineering solutions.

CONTACT US TODAY

Partner with Gopique to build sustainable infrastructure for a better future.

GRADE 7CE

CIDB Grade 7CE/4GB

Certified capability to execute large-scale municipal, provincial, and private contracts.

R380M+

Proven Portfolio

A verified history of successfully delivering bulk water, structural concrete, road, and housing works.

LEVEL 1

BBBEE Contributor

Promoting transformation and social value while ensuring full compliance with national guidelines.

OWN FLEET

Modern Fleet Ownership

Reduced project risk and lower overheads due to direct ownership of heavy paving and earthmoving plant.
